Serial No.

budget for 1920-21. The Supdt Govt Print estimates the Cost of paper required at Rs 50,000 which the Census Supdt thinks as excessive

In the present prices of paper even allowing for economies proposed to be effected, the Cost of the necessary paper may be taken as not far less than Rs 35,000. The expn on this account during 1919-20 was Rs 15,000 roughly

A provision of Rs 17,000 has been included for the purpose in the ~~Census~~ draft budget for 20-21: a further grant of about Rs 13,000 would probably be necessary This is an indispensible item of expenditure which has to be provided for.

May the further report promised from the Census Supdt be awaited or the Finl Supdt be requested to note the request for an additional grant of about Rs 13,000 roughly for inclusion in the final budget.

Subd for orders.

Chief Secy)

I fear an adequate grant for the cost of paper required for census work has not been made in the budget.

The Census Supdt. says he did not include it in his estimate in the belief that the charge would be included in the Press 158a Dept budget.

The Press Supdt. omitted the item in the belief that provision would be made in the census budget.

In the circs the officers concerned may be authorised to incur the necessary expenditure out of the present grant in the budget & an add grant may be made later on in the year.

H Secy with Compliments) BM

Paper required for Census work.

Forwards copies of correspondence with the Superintendent, Government Printing and Stationery and the Census Commissioner for India in regard to .....

SIR,

I have the honour to forward herewith copies of correspondence (a) between myself and the Superintendent of Government Printing and Stationery on the one hand and (b) the Census Commissioner for India on the other in regard to the supply of paper required for Census work.

2. It will be seen therefrom that there is some difficulty firstly as regards our being able to procure requisite kinds and quantity of paper for Census work and secondly as regards the source (i.e. the Press or Census budget) from which the cost of paper etc.. is to be met.

3. I am in correspondence with both these officers and shall make a further report to Government as to the final result.

I have the honour to be,
Sir,
Your most obedient servant,

V. Thyagarajaiyar 23/6/20

From

J. T. Marten, Esq., I.C.S.,
Census Commissioner for India.

To

The Superintendent of Census Operations, Mysore,
BANGALORE.

Dated, Simla, the 4th June 1920.

Sir,

I have the honour to enquire whether your indent for Badami paper viz., 1713 reams is correct as the quantity asked for seems exceptionally high considering the population of Mysore. The -- Mills are having great difficulty in meeting indents and it is -- therefore necessary to frame the indents as carefully and economically as possible.

I have the honour to be,
Sir,
Your most obedient servant,

URGENT. No.350.

Government of India.

Office of the Census Commissioner for India.

From

J. T. Marten, Esq., I.C.S.

Census Commissioner for India.

To

All Shperintendents of Census Operations.

Simla, the 4th June 1920.

Sir,

I have the honour to address you with reference to the supply of Census paper by the Paper Mills. The Controller of Printing, Station ery and Stamps has brought to my notice the great difficulty which the Mills have in manufacturing paper of all kinds and especially the paper required for the Census. The Bengal Paper Mills have been receiving urgent indents for large quantities of Census paper from Provincial Superintendents and represent that under the existing conditions they are quite unable to fulfil these indents without considerable delay. I have talked the matter over with the Controller and I would ask you to take the following action:--

(1) I invite attention to the 3rd paragraph of Article 1 of Chapter IV of the Imperial Code. It is quite possible that a certain amount of paper may be available at reasonable rates from local Mills and -- should be glad if you would at once make enquiries and see what amount of paper and at what rates, such Mills could supply for the Schedules. We can possibly in this way relieve the situation by diverting some of the indents from the Bengal Paper Mills to other establishments.

(2) Please refer to Art.6 of Chapter IV of the Code. It is there said that about 90% of the estimated requirements for Schedules should be despatched locally by the end of September. This means that the whole amount of paper required would have to be in the Presses in time to print and issue in September. It is possible I think for us to extend this period. I should be glad if you would kindly ascertain from the Press exactly the length of time which they will require to print and issue Schedules after the receipt of paper by them. It --

It would be possible for the Presses to turn out Schedules very -- quickly when once the plates have been made. As regards distribution you would have to arrange for early distribution to the remoter tracts of the Province, so as to get the Schedules on the spot by the time the Preliminary Enumeration is to begin. For tracts on the railway it would seem sufficient if the Schedules were issued from the Presses in December or even early in January.

2. Will you kindly revise your indents dividing them up into (a) the minimum of paper which is required at once and (b) paper which can be received at a later date and let me have this information as early as possible. I would request that you would do this as carefully as possible as we must meet the Mills in their difficulty or we may risk a break-down of the whole supply. Meanwhile I am asking the Mills to supply a proportion of the indent to each Province and State at once and it would be advisable not to worry the Mills at present with urgent reminders where this can possibly be avoided.

I have the honour to be,

Sir,

Your most obedient servant,

Sd/-- J. T. Marten,

Census Commissioner for India.

Subject.

SIR,

With reference to your letter No.347 dated 4th June 1920, enquiring whether my indent for Badami paper viz., 1,713 reams is correct, and observing that the quantity asked for seems exceptionally high considering the population of Mysore, I have the honour to state that the indent was based upon the actuals of consumption at the last Census, and without even allowing the usual margin of 15% or so, for the natural increase of population during the last decade. The abnormal consumption I may add, may be explained as due to the rule requiring the entries for each dwelling house to be written on a separate page of the general schedule irrespective of the number of persons in that house the rule on the subject in British India being -- different. The paper in question (viz., Badami Royal) was used not only for the schedules. but also for House Lists. Block Lists. Compilation Registers and other records as detailed in the annexed statement. The bulk of the consumption was of course in respect of the

the schedules. It will no doubt be conceded that I cannot possibly reduce my indent for the paper required for the schedules. As regards the other forms, I have already made separate arrangements for the paper required for House Lists, and Block Lists, and it will be sufficient if the paper required for the compilation Registers etc. is supplied next year (1921). In the result, I shall be satisfied if 1,400 reams of paper (calculated as in the margin) are supplied for the present i.e., this year (1920). I shall address a separate communication regarding my requirements for next year.

| | |
|---|---|
| For schedules only | 1,205 reams |
| add 15% for increase of population | 180¾ |
| | 1,385¾ |
| or 1,400 reams in round figures | |

2. In this connection I desire to suggest that if it is possible to get any other kind of paper e.g., printing foolscap etc., in large quantities to serve as a substitute for Badami Royal, the same may be used instead of Badami.

I have the honour to be,

Sir,

Your most obedient servant,

Rodwell

for Census Superintendent in Mysore

(12

Letter No. 922/F. 7-44, dated the 16th June 1920 from the Census Superintendent in Mysore, to the Census Commissioner for India, Simla.

I have the honour to acknowledge the receipt of your letter No. 350 dated 4th June 1920 regarding the difficulty experienced in procuring paper required for Census work, and in reply to state as ~~follo~~ follows:---

1. There are no local Paper Mills and consequently it is not possible to obtain any paper locally. It is understood that the local --- Superintendent of Government Printing and Stationery usually indents upon the Bengal and Titaghur Paper Mills for the greater portion of his normal requirements.

2. I expect that the Local Government Press which is doing all the Census Printing will be able to print all the Enumeration Books and-- Schedules in about a couple of months at the most. As a matter of -- fact, in the provisional programme of Census Printing which I have -- furnished to the Local Superintendent of Government Printing, the -- months of October and November 1920 have been set apart for the Printing of the Schedules, covers etc.,

3. As regards distribution, there are no tracts in Mysore so remote, that the consignments sent from my Office in Bangalore cannot reach them in 4 days at the most. Many of the Head-Quarters of charges are connected with Bangalore by Railway, and consignments sent -- from Bangalore can reach them either the 2nd or 3rd Day. I, therefore propose to commence the distribution of the Schedules, Enumeration Books etc., only in the month of December 1920.

4. In my letter No. 901/F. 7-40 dated 12th June 1920 I have already stated how my minimum requirements of Badami Paper would be about 1400 reams. But by changing the rule in Mysore which require that the entries for each dwelling house should be written on a separate page of the General Schedule, and adopting the rule on the subject in British India and effecting other improvements I expect to

(15

to, be able to reduce the consumption by about 400 reams. I shall therefore be satisfied if 1000reams are supplied this year (1920). 25 per cent of this quantity or 250 reams may kindly be ordered to be supplied immediately, and the balance (750 reams) may be supplied by the end of August or September 1920.

I shall address a separate communication to you regarding the Badami Paper required next year (1921) for the compilation Registers etc., This will be required in the early part of the 1921.

As regards the Brown Cartridge, the Controller, Government Printing, has intimated in his letter No. 1793/4c dated 3rd June 1920 that he has requested the Mills to supply to me 110 reams for the present out of 640 ordered by me. Provided Cartridge papers are required fo slips etc., are supplied next year (1921), it will suffice if 110 reams for covers are supplied immediately. One fourth of this quantity may be supplied at once or as early as possible; and the Balanc in August or September 1920.

I have noted your request not to worry the Mills with my urgent reminders.

I have the honour to be,

Sir,

Your most obedient servant,

Sd/ V. R. Thyagarajaiyar

Census Superintendent in Mysore.

**Subject.**

Budget provision for Census Stationery and Printing.

SIR,

Adverting to correspondence ending with your letter No.1596 dated 10th June 1920 regarding the budget provision for the paper required for Census work, I have the honour to invite your attention to my letter No.89 written so far back as 2nd February 1920, requesting you to be so good as to make the needful arrangements to meet the unusal demand for paper and stationery which would arise in connection with the Census Thinking that "the needful arrangements" would be understood as including the making of the necessary provision in the Stationery Budget no provision was made in this behalf in the Census budget. In this connection, I may invite your attention to page 155 of the Civil Budget Estimates of 1910-11 from which it will be seen that on the occasion of the Census of 1911. a provision of "Rs 30.000/- on account of Census work" was made not in the Census, but in the Stationery and Printing budget. If however, you have not made any provision in your budget for Census work, and you desire that the funds should be provided in the Census budget, I have no objection to address Government in this

this behalf, on hearing from you regarding the sum which would probably be required for the purpose. Being an inevitable expenditure, it will, I am sure, be sanctioned by Government as an additional grant

2. Meanwhile there is no reason why there should be any delay in -- making enquiries for the papers required by me as per list enclosed with my letter No.362/F.7-21 dated 4th May. By the time the quotations are received, and orders are placed, funds will doubtless be - forthcoming.

3. As regards the weights of the several kinds of paper to be ordered for me, (vide your letter No.1596 dated 8th June 1920), I have no information to furnish beyond the details given in para 1 of Chapter IV of the Imperial Census Code extract from which has been already sent to you. In my letter No.362/F.7-21 dated 4th May 1920, I have given you full descriptive particulars about the kinds of paper required, - and if you so desire I shall also send you specimens of each kind used during the last Census. As these papers were ordered by your predecessor, there must be records in your office regarding the weights of the several kinds of papers. I have also mentioned the quantity of each kind which may be required, and it is for you to determine with the aid of these data the weight per ream of each kind of paper, and the probable cost.

4. I request you to be so good as to advise me at a very early date as to what additional funds I should apply for. If any printing materials have to be ordered for <u>specially</u> for Census work, and if there is no provision for it, in the Press budget, it may also be included in the above estimate.

I have the honour to be,
Sir,
Your most obedient servant,

Sd/- M.S. Ramachandra Rao,

For Census Superintendent in Mysore.

140

Letter No.1596 dated 18th June 1920 from the Superintendent Government Stationery, to the Census Superintendent in Mysore.

Sir,

Referring to your No.902/F.7-3-9 of the 12th instant, I have the honour to state that the provision of Rs 30,000/- referred to by you as being provided for in the Stationery and Printing Budget for 1910-11 is for the purchase of type &c., for printing purposes, and not for meeting charges of paper for printing Census Forms &c, But for this purpose money was provided in the Census budget vide page 155 of the budget of 1910-11. Accordingly in the year 1910-11 the bills for papers purchased for Census work were sent to the Census Superintend for payment. This time it is proposed to make the same arrangements and I therefore request you to kindly move Government to provide Rs 50,000 for papers for the Census in the next year's budget. I propose to purchase printing double foolscap 18 lbs. for all the Census work this time. On hearing from you this paper will be ordered and bills sent to you for payment. I have etc

CENSUS SUPERINTENDENT IN MYSORE,
BANGALORE.

To

D. B. Ramachandra Mudaliar, Esq.,
Superintendent, Government Printing and Stationery,
B A N G A L O R E.

Subject.

Budget provision for Census paper.

SIR,

Adverting to correspondence ending with your letter No.1596 dated 18th June 1920 regarding the above subject, I have the honour to state that there is no reference forthcoming at page 153 of the Budget estimates of 1910-11 to show that the cost of paper was met out of the Census budget during the last Census. The reference has apparently been misquoted. There are however a few references in my office which go to show that some of the bills of some of the firms who supplied paper were met out of the Census Budget. I have no objection to a similar arrangement being followed this time.

2. But before finally addressing Government in the matter, I request you to be so good as to let me know whether the whole of the Rs 50,000/- proposed should be provided in the next year's (1921-22) budget alone, or a portion thereof, may be provided in the 3rd year's budget (i.e., of 1922-23). I have no information as to how this figure was arrived at, but it seems to me to be some what excessive. I should be glad if you -

you would kindly let me know the details of the calculation. It is possible that we may be able to considerably reduce our consumption of paper this time, and it is with reference to this that I am anxious to know the data on which the above estimate has been -- based.

3. As regards your proposal to purchase 18 lbs printing double foolscap for all the Census work this time, doubtless that will be the kind of paper the consumption of which will be very heavy next to Badami royal which will be used for Schedules, and which will be supplied by the Census Commissioner. But there are also other kind of paper which will be required in smaller quantities, as detailed in the annexure to my letter No.362/F.7-21 dated 4th May 1920, and I shall be glad if you will kindly call for quotations for these also.

4. In this connection I desire to invite reference to the last -- para of my letter No.902/F.7-41 dated 12th June 1920 and to observe that the point raised (i.e., whether any additional funds are required for type for Census work) has not been specifically answered in your letter under reply.

I have the honour to be,

Sir,

Your most obedient servant,

CHIEF SECRETARY IV MINOR Depts. -9 JUL 1920

FROM

V. R. THYAGARAJAIYAR, ESQ., M.A.,
CENSUS SUPERINTENDENT IN MYSORE,
BANGALORE.

To

C. S. Balasundaram Iyer, Esq., B.A.,
Chief Secretary to the Government of Mysore,
B A N G A L O R E.

**Subject.** Budget allotment for the purchase of paper required for Census work.

SIR,

In continuation of my letter No.961/F.7-47 dated 22nd June 1920 stating that I would make a further report to Government, as to the final result of the correspondence I was carrying on with the Census Commissioner for India on the one hand and the local Superintendent of Government Printing and Stationery on the other, regarding (i) the difficulty about procuring the requisite kinds and quantity of paper required for Census work, (ii) the source from which the cost of the paper is to be met, I have the honour to state that the Census Commissioner for India has since intimated that he has my indent for Badami paper to 600 reams. This, however, is not likely to cause any inconvenience since by adding one more column for "House Number" to the General Schedule, as in British India, and effecting suitable alterations in the making up of the Enumeration Books, I expect to be able to manage with the 600 reams which the Census Commissioner has agreed to supply me, if not with even less. As regards brown cartridge, I have already --

already intimated to the Census Commissioner, that I shall be satisfied for the present with 110 reams, or one fourth of the quantity, that was used on the occasion of the last Census. In the result, I do not anticipate now any difficulty in regard to procuring the requisite kinds and quantity of paper required for Census work.

2. With regard to the second point dealt with in my letter No.961 -- dated 22nd June 1920 under ~~correspondence~~ inadvertence, I did not make any provision for meeting the cost of the paper and the printing of the forms, in the -- Census Budget Estimates, for 1920-21, which I submitted to Government with my letter No.F.19-9 dated 31st March 1920, under the impression -- that the Superintendent, Government Printing and Stationery would make the necessary provision in his budget, i.e., the Printing and Stationery Budget in conformity with the procedure which obtained during the last (1911) Census( Vide page 155 of the printed Civil Budget Estimates of 1910-11 from which it will be seen that a provision of Rs. 30,000 was -- made on account of Census work in the Press Budget). But the Superintendent explains that the said sum was intended for meeting the cost of type etc., required for printing purposes, and does not include the -- cost of paper. He accordingly suggests that Government may be moved to provide Rs. 50,000/- for paper in the Census Budget for 1920-21. I have the honour, accordingly to request you to be so good as to move Government to sanction the said sum in the budget for 1920-21 as an additional grant over and above what has been asked for in my letter No.F. 19-9 dated 31st March 1920. I do not think the whole of Rs. 50,000/- will be required, as it is under contemplation to introduce a number of improvements in the size of the Forms; making them up into Books, etc, the effect of which would be considerable savings of Stationery and -- money. The details are being worked out, and exact information will be submitted to Government, as soon as the work is completed, and the quotations called for from the firms dealing in paper, are received. Meanwhile if there should be any difficulty in finding the whole of the Rs. 50,000/- in the budget of 1920-21, I request that at least a portion say (Rs. 30,000/-) may be provided in the budget of 1920-21, the balance to the required extent being provided in the budget of 1921-22. The Superintendent adds that " a sum of Rs. 50,000/- has been proposed on

on account of the higher prices for paper now ruling which are nearly treble those which ruled ten years ago."

3. As regards printing charges, I understand that the Superintendent has in his letter No.3246 dated 25/26th June 1920 to you moved Government to sanction the necessary funds in the Press Budget.

I have the honour to be,

Sir,

Your most obedient servant,

M.S. Ramachendra Rao

For Census Superintendent in Mysore,

Absent from Head Quarters.
